「The Basics of lighting design」 - AIA seminar at ERCO

“Light – the fourth dimension of architecture”

City, Hall, London
Architect: Sir Norman Foster
Lighting design Claude Engle and LPA

To give you an insight of the possibility of architectural lighting, we would like to invite to you to a seminar at premises.

This seminar includes following contents:

- Basics of lighting design
- Categories of perception
- Quantitative lighting design + Qualitative lighting design
- Lamps, Luminaires, Lighting concepts, Lighting control

After the slide presentation of about 45 minutes, there will be a short break where we will serve some sandwiches and beverages. At the end you will see and experience the lighting effects of indoor + outdoor fittings, in and outside our showroom, with a detailed explanation of each fitting and its effect.

Date: May 8th(Thu) Time: 7:00PM ~ 8:30PM

Maximum number of participants: 20 persons

We would be happy to welcome you and your team to this seminar.

For any further questions please feel free to contact Miyako Ukita (tel.03-5418-8243)

Sincerely yours,

Miyako Ukita, ERCO Lighting Ltd.
